

Windshield Flex

Phone Mount

Expansive viewing with flexibility. The Windshield Flex phone mount has everything you need for the safest and most secure mounting experience, even on the bumpiest roads! The mount's universal phone cradle safely secures the largest phones and the bulkiest cases with adjustable grips and conveniently rotates a full 360° for portrait or landscape viewing. Enjoy a hassle-free, quick installation by attaching the mount with the sticky gel pad suction cup and pressing down the locking lever. An included optional dashboard support provides additional stability on rough roads and terrain. Easily adjust for full-screen visibility with the flexible 11-inch gooseneck, so navigation, calls, and music control are conveniently at your fingertips and glanceable while you're on the road. Incredible hands-free convenience and safety on the road!
