

HYPERGEAR

V150 Office

Home/Office Stereo Headset

Work, play or listen— the V150 is engineered to handle it all with stunning sound! Custom-tuned 40mm drivers deliver incredibly precise high-definition audio quality, crystal clear conversations, enhanced gaming performances and immersive music experiences for ultimate versatility. Be heard loud and clear, as the flexible microphone features a noise-reduction windscreen that removes any unwanted distractions or sounds. Enjoy all-day comfortability whether you're working, gaming, or just listening to music with an adjustable padded steel frame headband and ultra-soft ear cushions so that you can keep the focus on what matters. The 3.5mm audio jack easily transitions between your PC/Mac, mobile devices, or even consoles for universal compatibility. Unique 7-color breathing LED lights add a unique edge to your style, mood, or game atmosphere. The perfect stereo headset for work and play!

Great for Zoom, Skype, Google Meet & More!
