

SB51a

5.1 Home Theater Surround Sound System

SOUNDBAR | SPEAKERS | SUBWOOFER

Upgrade your TV setup with cinematic surround sound with the HyperGear SB51a 5.1 Home Theater Surround Sound System. Featuring 7 dedicated speaker drivers - including a 5.25-inch subwoofer for deep, booming bass - your movies, TV, gaming, and music are brought to life with immersive 3D detail and room-filling power. With 3 expert-tuned EQ modes, you can enhance your audio for crystal-clear dialogue, room-shaking bass, or studio-quality mixing - all with just the push of a button. Built with HDMI connectivity and a low-profile, minimalist design optimized for 4K and 8K UHD TV setups.
